

ALEXA 4:3 Plus XR Module for ARRIRAW

The included ARRI XR Module for the ALEXA Plus 4:3, replaces the SxS module on the camera left side.

The XR Module allows in-camera ARRIRAW (up to 16:9 120 fps or 4:3 90 fps), ProRes (up to ProRes 4444 16:9/HD 120 fps or 4:3 48 fps) or DNxHD recording onto XR Capture Drives. With the SxS Adapter it is possible to record ProRes or DNxHD onto SxS PRO cards.

With the CFast 2.0 Adapter it is possible to record ProRes or DNxHD onto CFast 2.0 cards.

Includes:

- ACOM2 board
- XR Module

Note:

Camera is rented with four (4) individual 512MB XR codex capture drives.

If you need more XR Capture Drives, SxS Adapter, SxS PRO cards, Cfast 2.0 Adapter, CFast 2.0 cards or docks, please contact us.
